Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner discussed incorporating the limitations of just claim 5 into the independent claims, since this structure provided the criticality of the snare/loop and how it was capable of capturing a large polyp without tearing it as well as capturing a small polyp without the need for a second device. This criticality was discussed in the Affidavit filed 4/19/07 on the bottom of page 3, which was found convincing by the examiner, and thus the reason for the examiner amendment and notice of allowance. .
